

SEDAR® Subscriber Update December 2, 2002

SEDAR EDI BANKING INFORMATION

CDS INC. would like to remind all subscribers of their responsibility to have current and accurate SEDAR EDI banking information within the SEDAR database. Each subscriber that establishes an EDI banking account with a financial institution in Canada that offers EDI services should perform a periodic review of this account. Any changes, such as financial institution numbers, transit numbers, or account numbers should be submitted on a SEDAR Form 1 to the SEDAR Administrator in a prompt manner. In addition, all subscribers should review the account's status to ensure that the account is still active before processing transactions.

For more information, please contact your local SEDAR Customer Service Representative or the CDS INC. Help Desk at 1-800-219-5381.
